

CT Concorde Hand Tachometer Accessories

VLS Series Remote Optical Sensors

Two types available to suit a wide range of applications, one Laser and one visible light source.

Laser model (VLS5/J/LSR)

Optical range = 50 - 2000mm
Optical angle = +/- 80 Deg.
Contact adaptor = Not Compatible

Visible light model (VLS5/J)

Optical range = 50 - 1000mm
Optical angle = +/- 45 Deg.
Contact adaptor = Compatible

Order code	Description
VLS5/J	Remote sensor
VLS5/J/LSR	Laser Remote sensor

Lens adaptor

This attachment is used with CT and VLS sensors for small high speed applications where only a very small reflective target can be attached or where not target can be fitted, in this case it may be used with non-reflective paint.

Order code	Description
LN1	Lens Adaptor

Injector pipe Transducers standard	
Codes	pipe size
DES/09	4.55mm
DES/10	6.00mm (Most frequent type)
DES/11	6.35mm (1/4")
DES/12	8mm
DES/14	7mm
DES/15	10mm
Special sizes available	

LSAB series Contact Adaptor Options

Fits All CT Optical Tachometers

LSAB-2 for RPM & Linear speed & Length

Standard with 100mm wheel & integral rpm cone

Order code	Description
LSAB/2	Standard Contact Adaptor
CDR2	rpm cone
CDM1	Linear contact wheels & tyre set

Heavy duty LSAB-3 Series for Linear speed & length only

Two heavy duty types with 200mm wheels, serrated nylon surface or smooth surface.

Order code	Description
LSAB/3/9109	Heavy duty serrated wheel
LSAB/3/9110	Heavy duty smooth wheel

Order code	Description
L5V	Lamp pack of 3
RT5	Reflective tape 5 metre
